

GLOBAL TECHNICAL SERVICES

ABOUT US

For over four decades, Pima Controls Pvt Ltd has been a leader in Industrial Automation in India and a trusted partner, serving its End Users, OEMs, EPCs and system integrators with a wide array of engineering services. Our experience spans from on call out field services, control systems training and development and embedded engineers for short- and long-term assignments. We are excited to take a giant leap forward by extending these services to a global cliental who are eager to have access to qualified and competitive talent through our vertical: Pima's Global Technical Services Business. You can now hire the experienced Cross Functional diverse Team to make you Engineering a Proper success.

Pima's Global Technical Services Business is dedicated to providing top-tier technical and engineering solutions for the industrial landscape. Our services shall encompass a wide range of expertise, including electrical and controls engineering, instrumentation, mechanical engineering for Piping Analysis, 3D Modelling ,static & rotating equipment design and digitization and IT/OT integration.

Industry Coverage

PIMA PROVIDES THESE SERVICES ACROSS A WIDE RANGE OF INDUSTRIES, INCLUDING

- Oil & Gas - Hydrocarbon (Onshore and Offshore)
- Renewable Energy
- Power
- Infrastructure
- Marine & General Engineering
- Manufacturing Industries

PROCESS CONTROL INSTRUMENTATIONS & AUTOMATION

- PLC Programming for Rockwell & Siemens & GE PLC
- Control Panel design & Supply (4L. EC61439 etc)
- Instrument Schedule , Instrument Index, Cause & effect Diagram
- P & ID generation , Point Data base , I/O Index
- Instrument Data sheets

ELECTRICAL

- Motor -HT, MV, LV Motor design.
- VFD, Soft starter design
- Single Line Diagram for the system
- MCC, PCC, Busducts, PBB etc.

MECHANICAL

- Piping Design
- PDMS – Plant design Maintenance System
- 2D/3D modelling , SolidWorks Auto Cad Inventor etc.)
- Design Code -ASME Sec VIII Div .1 ,API, TEMA , PED , IBR ,CE Marking ,DOSH ,CSA etc.

FIELD SERVICES

- Site Supervision services for Mechanical , Instrument & Control ,Electrical & Automations Support.
- Annual Maintenance contract
- Energy Assessment
- Predictive Management

DIGITAL & SOFTWARE SOLUTIONS

- Digitization of Process and Plant
- Energy Monitoring Solution
- Condition Monitoring

OTHER TECHNICAL SERVICES

- Project Management
- Procurement & Contract Management
- Quality Engineering Services for Inspection
